Professional Summary

Applied physicist working as a researcher at Fondazione Eucentre (Pavia), where I develop software and apply artificial intelligence and machine learning methods to earthquake engineering, with a focus on computer vision. Background in Raman spectroscopy, data analysis and nuclear physics, combined with two years of teaching experience. Interested in interdisciplinary work and open to international collaboration.

Work Experience

- Nov 2025 – present **Researcher – Software Development & AI, Fondazione Eucentre (European Centre for Training and Research in Earthquake Engineering)**, Pavia, Italy
- Software development with a particular, though not exclusive, focus on artificial intelligence and machine learning methods applied to earthquake engineering
 - Development of computer vision models supporting post-disaster assessment
 - Technologies: Python, SQL, Java, JavaScript, HTML, CSS
- Jan 2023 – Jun 2023 **High School Physics and Math Teacher (Theory and Practice)**, Liceo Scientifico G. Cardano & Liceo Scientifico N. Copernico, Pavia, Italy
- Jan 2024 – Feb 2024
- Planned and delivered individual and group physics lessons for high school students
 - Designed support activities for students with learning disabilities (DSA)
 - Applied educational models focused on problem-solving and goal-oriented learning

Education

- 2023 – 2025 **MSc in Physics, University of Pavia, Italy**
Specialization in Applied and Nuclear Physics
Thesis: “Understanding and Classifying Domestic Microplastics through Raman Spectroscopy and Machine Learning”
Supervisors: Prof. Pietro Galinetto & Prof. Claudio Cusano
- 2018 – 2023 **BSc in Physics, University of Pavia, Italy**
Thesis: “Radiocarbon dating via ^{14}C and comparison with other methods (thermoluminescence)”
Supervisor: Prof. Paola Salvini

Skills

- Programming Python, SQL, Java, JavaScript, C++, HTML, CSS
- AI & Data Machine Learning, Computer Vision, Neural Networks, Advanced Statistics, Data Analysis
- Physics Raman spectroscopy, SERS, Nuclear physics, Radiation protection, Condensed matter
- Languages Italian (native), English (C1), Spanish (basic)

Hobbies and Interests

- Creative Writing and designing collaborative role-playing campaigns (Dungeons & Dragons), both as player and game master
- Music Electric guitar, both solo and in band
- Teamwork Board games and cooperative projects
- Well-being Jogging, training, and home cooking
